MONEY, STOCKS AND GRAIN Heavy Tone to Wall-Street Business All

Day Relieved at the Close.

Outstanding Short Interest in Share List Enormous, Causing Brisk Borrowing Demand -Indianapolis Cereals Active.

THE BOND MARKET.

Railway Issues Quiet and Weak, Sales Reaching \$695,000, At New York, yesterday, money on call was easier at 3 to 8 per cent., the last loan being made at 8, closing offered at 3.

Prime mercantile paper, 8@12 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$1.824 @4.824 for sixty days, and \$4.84 2 4.84 for de-

Silver certificates opened higher and advanced from 78 to 74, later receding to 73 and closing quiet at 78 bid and 74 asked. Sales of silver certificates, 45,000 onnces. Bar silver at London, 384d.

Five hundred thousand ounces of silver and 100,000 Mexican dollars will go to Europe on the Spree to-morrow.

The Treasury Department to-day purchased 80,000 onness of silver as follows: Fifty thousand at 73.40c, 30,000 at 78.45c. The offers were 738,000 ounces. The total amount of silver purchased up to date for July is 948,000 ounces.

The week opened with renewed depression on the New York Stock Exchange, owing chiefly to unfavorable advices from London, where the markets for securities were reported flat, and to the long list of failures in banking and mercantile circles on this side. The bears were practically in full control, and hammered pretty much everything on the list with more or less success, in the absence of effective support on the bull side. The decline was equal to 2034 per cent. The granger stocks also received marked attention on account of the iron troubles in the Northwest. The pressure to sell was not particularly heavy. There were a number of rallies, but they failed to hold until just previous to the close, when prices recovered 4 to 14 per cent. from the lowest. During the afternoon it was rumored that Mr. James R. Keene was seriously ill, but it was soon learned that he was confined to his home by a very trivial complaint. The outstanding short interest in the market is very heavy, and there was a brisk borrowing demand for the leading shares throughout the day. The market

closed steadier in tone. Railway bonds were quiet and weak. The sales were \$095,000. Chicago & Erie incomes were offered at 30, against 35 the last previously reported sale. Erie second consols declined to 75 bid and 79 asked, and afterwards sold at 78, against 82 the last reported transaction. Government bonds were steady and State bonds were dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE. More Activity Noticeable on the Street, and

Prices Easter in Some Lines. Business was better on the wholesale streets yesterday. Traveling salesman are on their routes again, and this helps matters. All staple groceries are firm in price and moving out well for this season of the year. On commission row prices ruled easier on a number of articles. Bananas, in large supply and poor in quality, go off \$1 per bunch. Irish potatoes are arriving more freely, and the recent rains have stopped the cry of a light crop. Both ponitry and eggs are easy in tone, and prices are as strong as the market will bear. The hide market is dull and prices are easy. The provision market is active and prices

of hogs. In the wool market little is do-There was a fair attendance on 'Change yesterday. Wheat was off 100 on Saturday's prices, while several grades of corn were up 40 to 10 on Saturday's prices. Track bids on the several cereals ruled

somewhat shaky on the increasing receipts

MARKETS TENDING DOWN

This in the Face of a Decrease in the Visible and Discouraging Reports.

Good Supply of Wheat Still in Sight, Which. Taken with the Western Bank Failures. Caused a Decline of 1-2c Since Saturday.

TRADING AT CHICAGO.

Pork Was Neglected, Receipts of Hogs Heavy and Provisions Declined, CHICAGO, July 17. - The amount of wheat on ocean passage having decreased 1.432,000 bushels and the visible supply decreased 2.491,000 bushels, nearly 4,000,000 in all, taken with a falling off in Russian shipments, was said to be the cause to-day of firmness in the English markets. Also, the reports from the Northwestern springwheat region were no more reassuring than before. Nevertheless, to-night wheat 19 46 lower than on Saturday. Corn is %c lower and provisions are considerably lower. The decrease in the visible supply of wheat, although heavy, compared with the 691,000 bushels decrease in the same week a year ago, still leaves 53,328,000 bushels in sight, compared with 22,439,000 bushels last year. Very little business was done in the wheat pit to-day, the bank suspensions seeming to check trading. The opening was about 40 se lower than Saturday's closing, then became stronger and prices were advanced & D'ac, ruled easier, declining 40 4c. again became stronger and advanced 38 @ 4c from the bottom. The de-

crease in the visible was about what was expected. Corn was weaker from the start. Rains were reported in the West, and this, together with the bearish special report on corn issued in Kansas, had a very weakening effect and induced free selling. Receivers sold freely, one concern selling 250,000 bushels. Shippers also offered large quantitles. Increase in the visible was 811,000 bushels, but in Chicago there was a local reduction of 237,000 bushels, making the stock of all grades 1.748,000 bushels, against 4,115,000 bushels for the corresponding date in 1892. The market opened with a fractional loss, and after selling off 40 more held steady until the car lots for tomorrow came in at 9:5 cars, when the offerings were again increased and the price broke 4 @ so more. Later the price railied a trifle, but at the close had lost 4 2 %c. Most of the trading in oats came during the last half hour. The feeling was weak and prices averaged lower, July declining

to and September to, closing weak at

about the inside. Ribs were again a weak spot in the market. The receipts of hogs were heavy and lower. There were anxious sellers of September ribs, without any one to take the offerings, except at considerably lower than Saturday's closing prices. Chapin & Edwards, Armour & Co. and Wright were prominent among the sellers. Lard was weak, also, but at 10c for September. Cudaby and Fairbank, or both together, put enough supporting orders to prevent a further decline. Pork was neglected by both sides. The closing prices were at some recovery from the bottom of the day's range, but at a smart decline since Saturday's close. September pork is 15c down, October lard .80c, and September ribs .30c. Estimated receipts for to-morrow are: Wheat, 78 cars; corn. 975 cars; oats, 300 cars; hogs, 19,000. The leading futures

Some Recipes. White Cake .- A very delicate loaf of white cake that many prefer to angel food is made in the following way: Work one cupful of butter to a cream and add to it gradually two cupfuls of sugar. When light and creamy add a cupful of milk and two cupfuls of flour that has been sifted three times. Beat vigorously and add gradually the stiffly beaten whites of eleven eggs and one more cupful of sifted flour. Add the eggs and the flour to the batter alternately, and mix gently but thoroughly. Mix in quickly a teaspoonful of baking powder. Put the cake in tins and bake three-quarters of an hour in a

moderate oven. Tomato Eggs .- Cut three or four goodsized and not too ripe tomatoes into halves. Take out a little of the inside; lay them in a pan containing two ounces of heated butter, and fry them lightly. When nearly done carefully drop a raw egg from the shell into each tomato; watch till it has set perfectly, then take each one separately from the pan and lay it on a slice of buttered toast ont to the size of the fruit. Dust over them a little coralline pepper, and sprinkle a little finely-grated ham on the white of each egg; serve on a

hot dish. Ideal Gingerbread .- One cup of butter, one cup of sugar. two cups of molasses, one cup of milk, two eggs, one teasponful of sods, one teaspoonful of ginger, two teaspoonfuls of cinnamon and three cups of

tiour. Lemon Cream Cake.-Stir together half a cupful of butter and one of sugar; add the juice and grated rind of one lemon; then three whites of eggs whipped to a froth alternately, with one and a half cupfuls of flour sifted with a teaspoonful of baking powder and half a cupful of milk. Bake this in two jelly time. For the filling, boil three-fourths of a cupful of milk with two tablespoonfule of sugar; dissolve a tablespoonful of cornstarch in two tablespoonfuls of cold milk, stir into the boiling milk and cook for ten minutes in a double boiler; add a generous lump of butter, the juice and grated rind of a lemon and the yelks of three eggs; stir until it thickens and remove from the fire. When cakes and filling are cold, spread this between the lay-

Senator Voorhees predicts that Congress

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State, Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event

or matter of general interest. Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every 400.00 | farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

> The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertains ment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
